

Mazzotta Rentals, Inc. is the premier provider of construction equipment rentals and related services in the Northeastern United States. With locations in Connecticut, New York and Massachusetts, we provide equipment rentals and sales, with the highest level of service and support, to a variety of commercial, industrial, retail, residential, municipal and specialized customers throughout New England and New York.

Our success is a result of our dedicated commitment to providing high quality, reliable equipment with fast, dependable and personalized (one-on-one) service.

“Top-notch training from a team that truly puts safety first. Our crew left confident, informed, and ready to work!”

~ GREGG SMITH

MAZZOTTA
Equipment Rentals

Safety-First, Always

Mazzotta Rentals professionals are fully trained and certified in safe operating procedures. Each professional prioritizes safety above all and, all possess stop-work authority for all our equipment.

Our safety professionals never compromise safety, will keep your crew out of harms way and will provide an elevated customer service experience so you can work with confidence.

Safety Training Courses

Mobile Elevated Work Platforms (MEWP)

Discover how to operate mobile elevated work platforms (MEWPs) safely. Courses are available for the safe operation of boom lifts, manually propelled lifts and scissor lifts.

Forklifts

Learn about how to safely operate and maintain forklifts. Courses are available for safe operation of industrial/warehouse forklifts and rough terrain forklifts/telehandlers.

Rotating Telehandlers

Rotating telehandlers are versatile units that can perform the roles of many types of conventional equipment. Due to their unique functionality and abilities, specialized training is required for the safe and effective operation of rotators.

Earth Moving

Develop the skills and knowledge needed to effectively operate earth moving equipment. Courses are offered for safe operation of backhoes, excavators, and skid steers.

Español

Explore our training courses available in Spanish (en español). Courses are now available for earth moving equipment, forklifts, and mobile elevated work platforms (MEWPs).
